**“We marked our lambs this year with Numnuts and the improvement in our lambs recoveries was huge!”**

Sally Patterson | Farmer and Vet Nurse, VIC

This ergonomic device applies a standard rubber ring to cut off blood supply, while also delivering targeted pain relief through a safe, easy-to-use injection mechanism.

Using Numnuts is:

- Efficient to use & ergonomic
- Low stress for animal & farmer
- For both tails & testes
- Blood free
- Safe
- Two actions in one device!

### Numnuts with NumOcaine blocks pain before it starts

NumOcaine is a local anaesthetic that works for the acute pain phase when the lamb experiences the most intense pain from the ring.
